PROFILE

Detail-oriented Associate Frontend Engineer with ~2 years of experience building modern, responsive, and high-performance web applications using React.js and related technologies. Proficient in developing scalable UI architectures, optimizing frontend performance, and integrating RESTful APIs. Strong understanding of component-based design, state management, and user-centric development. Passionate about writing clean, maintainable code and collaborating in Agile environments to deliver impactful digital products.

PROFESSIONAL EXPERIENCE

Associate Frontend Engineer

05/2025 – Present | Lahore

Punjab Sahulat bazaar

- Developed dynamic and responsive user interfaces using React.js, Next.js, and TypeScript.
- Built reusable and modular components to ensure scalability and maintainability across applications.
- Integrated frontend applications with RESTful APIs, ensuring seamless data handling and UI updates.
- Implemented efficient state management using Redux Toolkit and React Query.
- Optimized application performance through lazy loading, code splitting, and memoization techniques.
- Collaborated with cross-functional teams in Agile workflows including sprint planning and daily stand-ups.

MERN Stack Engineer

08/2024 – 04/2025 | Lahore

Firm Tech Sol

- Designed and developed responsive web interfaces using React.js and modern JavaScript (ES6+).
- Built and maintained reusable UI components, improving development efficiency and consistency.
- Integrated frontend systems with backend APIs, ensuring reliable and efficient communication.
- Implemented authentication flows and role-based UI rendering for secure user experiences.
- Worked closely with designers to translate UI/UX designs into functional and pixel-perfect interfaces.
- Improved application performance and usability through optimization and debugging techniques.

PROJECTS

CoreOps SaaS Platform

MERN Stack | TypeScript | Tailwind CSS

- Developed role-based dashboards with tailored UI experiences for different user types.
- Built responsive and accessible interfaces using Tailwind CSS.
- Integrated secure workflows for document handling and transaction processes.
- Improved frontend performance and usability through structured component design.

CALIX – AI Care Assistant Platform

Next.js | React.js | TypeScript | Tailwind CSS | Material UI

- Built responsive frontend for an AI-based healthcare platform.
- Developed role-based dashboards for Admin, Doctor, and Patient.
- Created reusable and scalable React components.
- Integrated APIs for appointments, prescriptions, and AI insights.
- Ensured cross-device responsiveness and accessibility.
- Optimized performance with lazy loading and efficient rendering.

Ecommerce Application - QuickCart

Next.js | React.js | Tailwind CSS | ShadCN UI | React Icons

- Built a high-performance, fully responsive eCommerce frontend with seamless cross-device experience.
- Implemented end-to-end purchase flows including cart, checkout, and order success with focus on UX and conversion.
- Developed an admin portal for managing products, orders, discounts, and operational workflows.
- Created dynamic product discovery with filtering, reusable components, and scalable state management.
- Designed a modular architecture enabling scalability and rapid feature expansion.

Assetra

MERN Stack

- Built interactive dashboards and user interfaces for asset tracking and monitoring systems.
- Implemented efficient state management using Redux Toolkit for real-time data updates.
- Developed reusable components to support scalable frontend architecture.
- Integrated APIs to handle large datasets with optimized rendering performance.

Playnexus

Next.js | TypeScript

- Developed responsive frontend modules for booking systems and scheduling interfaces.
- Implemented real-time availability validation with intuitive UI feedback.
- Built scalable UI components for multi-tenant system support.
- Ensured cross-device compatibility and optimized user experience.

SKILLS

Frontend

React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux Toolkit, React Query, Material UI

Backend (Basic Understanding)

MongoDB, PostgreSQL, SQL

Additional

Responsive Design, Performance Optimization, Component Architecture, API Integration

EDUCATION

BS Computer Science

Bahria University Lahore

2020 – 2024 | Lahore, Pakistan
